The OS WPCA will present the proposal for the Decentralized Wastewater Management Program; the alternative chosen to address the 1997 Supreme Court order to resolve the groundwater pollution problems identified by CT DEP. The decentralized or onsite program will be applied as a Wastewater Management District (WMD) encompassing 15 neighborhoods identified as requiring possible septic system upgrades due to; density, lot size, shallow depth to groundwater, and aging and non-compliant systems. **Not all systems will require upgrading.**

Topics: Background, Project Scope, Comparison with Sewers/Central Plant, Costs and Financing, Legal Aspects, Review of Neighborhood Maps, Implementation Schedule, 2009 Town Referendum, and Q & A.

Most importantly, this meeting is specific to Saybrook Manor, Plum Bank and Great Hammock which include the streets; Bayside, Beachman, Charter, Elliott, Hartford, Middletown, Neptune, Pelton, River, Sea Lane, Shore, Vincent, Waterbury, Plum Bank, Indian, Sea Breeze, Barnes, Buckingham, and Walker.

Please plan to attend and meet with us.
